

Help someone who's going through what you've been through.

You've been there before. And now you can share your experience to help others. Emmi Solutions is looking for volunteers to watch a brief online patient education program and complete a short survey. Our programs educate people about their health. **But only you can help us make sure we're telling patients everything they need to know.**

WE ARE CURRENTLY LOOKING FOR
PEOPLE WHO HAVE HAD AN

UPPER GI ENDOSCOPY

We'd love to hear from you.

- Parents will watch an Emmi program and provide feedback about their experience.
- Participants receive a pedometer to thank them for their participation.
- Participants watch the program at home on their computer and the process takes 45 minutes.
